## Overview

---

How does Cape Town support decarbonisation of electricity?

ties and the City of Cape Town's Energy Strategy THE KEY AREAS OF ALIGNMENT INCLUDE: Decarbonisation of electricity is evidenced through the City of Cape Town's delivery and support of new renewable energy sources (whether owned or procured by the City or from the private sector) to reduce the local grid emissions factor. This is.

What is the energy demand in Cape Town?

the City, residents, and businesses in Cape Town. The overall energy demand of Cape Town is made up of the liquid fuels, gas, and electricity used in the transport sector, buildings.

How is Cape Town preparing for the wholesale electricity market?

offered by energy trading platforms and wheeling. With significant shifts expected in the short term with regard to how the wholesale electricity market operates in South Africa, the City of Cape Town is preparing itself as a utility to be a valuable contributing member of this market to both manage risks.

What are Cape Town's energy initiatives?

Cape Town's innovative and diverse energy initiatives have gained global recognition, including a recent visit by the World Bank's Vice President for Eastern and Southern Africa to the Steenbras Hydro Pumped Storage Scheme.

What types of electricity services are available in Cape Town?

s, such as photovoltaics. ELECTRICITY SUPPLY AREA Two electricity service providers<sup>1</sup> operate within the municipal borders of Cape Town, as shown in figure 4, namely the City's Electricity Generation and Distribution (EGD) Department, and the national power utility, Eskom. Each of these entities holds an electricity distributio.

What does energy security mean for Cape Town?

2050: Energy Security for a prosperous Cape Town. This vision is underpinned by four principles that describe the kind of energy system Cape Town needs – a resilient energy system that can provide reliable, affordable and carbon-neutral energy to everyone in the face of key shifts and stresses to be navigated, among a range of critical predictabl

## Cape town jiepai energy storage power station

---

### Solar MD opens Africa's first gigawatt factory in Cape Town

Solar MD officially opened Africa's first gigawatt factory in Cape Town to support the company's commitment to developing and manufacturing high-performance energy storage ...

### Steenbras plant ready to provide alternative energy ...

Built more than 30 years ago, the Steenbras power station was the first hydro-electric pumped storage scheme in Africa. He adds that the mechanism will be able to provide aid during load shedding periods ...

### Western Cape on track towards energy and water security: ...

On Wednesday, 12 March 2025, Premier Alan Winde hosted a digicon where he gave an update on the progress the Western Cape Government has made in building up the province's energy ...

### How is the Cape Town energy storage power station progressing

The Steenbras Power Station, also Steenbras Hydro Pump Station, is a 180 MW pumped-

storage hydroelectric power station commissioned in 1979 in South Africa. The power station sits ...

## Cape Town Begins Construction on South Africa's First City ...

Additionally, the municipal government has issued its first tender for battery storage, seeking to establish a 5 MW/8 MWh battery energy storage system at the same ...

## Elleyhill Power

Africa's diverse energy needs and requirements demand customised solutions. At Elleyhill Power, we embrace this challenge by developing products specifically designed for African conditions. Our solar panels, ...

## City takes heritage body to court over Athlone Power Station

The City of Cape Town has ramped up its push for a green energy future by launching legal action against Heritage Western Cape, contesting the provisional protection ...

## Power plant profile: Steenbras, South Africa

Description The project is currently owned by City of Cape Town with a stake of 100%. Steenbras is a pumped storage project. Development status The project got ...

## Construction begins on Cape Town solar PV plant, ...

The City of Cape Town (CoCT) has started construction on a R200-million, 7 MW solar PV plant, located in Atlantis, with the first ...

## Peaking power stations

The term peaking means we can react quickly to changes in demand and provide power to supplement that generated by base-load stations, which are coal and nuclear. South Africa's peaking power stations are hydroelectric, ...

## News

In October 2023, Fervo Energy broke ground on Project Cape Station, the largest next-generation geothermal development in the world. Eighteen months later, we continue to progress with both drilling ...

## Koeberg Nuclear Power Station

Koeberg Nuclear Power Station is a nuclear power station in South Africa and is the only one built on the African continent. It is located 30 km north of Cape Town, near Melkbosstrand on the ...

## South Africa

In October 2024, Scatec reached financial close for a battery energy storage project totalling 103 MW/ 412 MWh by the Department of Mineral Resources and Energy in South Africa under the ...

## Koeberg Nuclear Power Station Refurbishment

Koeberg Nuclear Power Station Refurbishment  
 The 1.86GW Koeberg nuclear power station (KNPS), located near Cape Town, is the only commercial nuclear power plant ...

## Eskom Power Stations: Complete list of power stations in

Are you aware that all the active ESKOM POWER STATIONS are over 15 in South Africa? Well, read through to get a comprehensive list of the 18 power facilities in the ...

## Solar, Wind, Gas (LPG, Hydrogen) and Other Renewable Energy ...

Solar, Wind, Gas (LPG, Hydrogen) and Other Renewable Energy Tenders in Cape Town 1 2  
 Next Total Posts: 69 1 2 Next Total Posts: 69

## Eskom's Koeberg nuclear experience

Nuclear energy currently provides approximately 11% of the world's electricity needs and has the potential to deliver clean, sustainable, economically competitive energy to complement coal-generated, hydro ...
