Overview

What is Community Energy Storage (CES)?

CES is an energy storage system designed with a community ownership and governance approach to generate socio-economic benefits. It is perceived as an intermediate solution between behind-the-meter storage systems and utility-scale distributed energy storage.

What is China International Energy Storage Conference?

The China International Energy Storage Conference is a platform focusing on industrial energy storage manufacturing. Here we showcased new technologies and were very happy to see many customers coming to our booth to communicate. In the future, we will participate in the exhibition with better solutions.

Will 2025 China energy storage industry pioneer award winners be included in this book?

2025 China Energy Storage Industry Pioneer Award winners have the opportunity to be included in this book. Please contact us for details.

China energy storage group ces

'Power up' for China's energy storage sector

Buoyed by the rapid growth in the renewable energy industry and strong policy support, China's development of power storage is on the cusp of a growth spurt which will ...
