Demonstration energy storage announcement

Overview

The Biden-Harris Administration, through the U.S. Department of Energy (DOE), today announced nearly \$350 million for emerging Long-Duration Energy Storage (LDES) demonstration projects capable of delivering electricity for 10 to 24 hours or longer to support a low-cost, reliable, carbon-free electric grid. What did OE announce at the energy storage Grand Challenge summit?

OE made these announcements at its 4th Annual Energy Storage Grand Challenge Summit bringing together stakeholders who will shape the future of the electricity infrastructure through next-generation energy storage solutions.

What does OE's new RD&D report mean for energy storage?

New Report Showcases Innovation to Advance Long Duration Energy Storage (LDES): OE today released its new report "Achieving the Promise of Low Cost LDES." This report is one example of OE's pioneering RD&D work to advance the next generation of energy storage technologies.

What is the long-duration energy storage portfolio?

The Long-Duration Energy Storage portfolio helps to advance LDES systems toward widespread commercial deployment. The goal of this portfolio is to fund projects that will overcome the technical and institutional barriers that exist for deployment, with a focus on different technology types for a diverse set of regions.

How can pre-production storage system design improve manufacturing scale-up?

Identifying and implementing design innovations will align pre-production storage system design to set the stage for manufacturing scale up and improved production of cost-effective, safe, and reliable short-, medium-, and long-duration storage technologies. New Report Showcases Innovation to Advance Long Duration Energy Storage (LDES):.

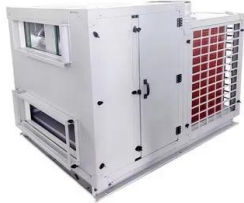

What is the DOE/DoD long-duration energy storage joint program (LDEs)?

DOE/DOD Long-Duration Energy Storage Joint Program: These projects will demonstrate LDES technologies on government facilities through collaboration between DOE and Department of Defense (DOD).

Why do we need energy storage technologies?

From providing critical backup power during natural disasters to supporting more renewable energy coming online, energy storage technologies make the grid more flexible and resilient. Today's energy storage technologies are not sufficiently scaled or affordable enough to meet energy demand that fluctuates throughout the day and night.

Demonstration energy storage announcement

Bipartisan Infrastructure Law ENERGY STORAGE PILOT ...

This NOFO will fund demonstrations of a variety of energy storage solutions at pilot-scale to advance technology maturity, reduce uncertainty in cost and performance characteristics, ...

US DOE offers US\$100 million for non-lithium ...

A Notice of Intent was issued by the DOE's Office of Clean Energy Demonstrations (OCED) earlier this week (2 July), seeking energy storage demonstration projects with 10-hours or more maximum discharge ...

Long Duration Energy Storage Demonstration Initiative and Joint ...

Lab Call Announcement (\$30m) for Long Duration Energy Storage Demonstrations Letters of Intent are due by Nov 2, 2022 at 5 p.m., ET. Additional funding anticipated application opening ...

Opportunity Information

The anticipated Funding Opportunity Announcement will address FY2023 Congressional Direction, which directs OE to pursue a competitive pilot demonstration grant

program, as ...

Energy Storage Demonstration and Validation , netl.doe.gov

The Department of Energy's (DOE's) National Energy Technology Laboratory (NETL), on behalf of the Office of Electricity (OE), is releasing a funding opportunity ...

Nearly \$15 Million Awarded to Four Demonstration Projects To ...

Governor Kathy Hochul today announced nearly \$15 million in awards to four demonstration projects that advance long duration energy storage solutions that will help ...

[FedConnect: Opportunity Summary](#)

The Department of Energy's (DOE's) National Energy Technology Laboratory (NETL), on behalf of the Office of Electricity (OE), is releasing a funding opportunity ...

NY Governor Hochul Announces Long-Duration Energy Storage Demonstration

The technology can be used in urban and rural settings to demonstrate a stable energy supply during periods of high demand and in extreme weather conditions. Today's ...

Department of Energy to Fund Non-Lithium Long ...

The U.S. Department of Energy's (DOE) Office of Clean Energy Demonstrations (OCED) is looking to advance the development of non-lithium long-duration energy storage (LDES) by funding pilot ...

OCED Announces \$100 Million for Non-Lithium Long-Duration ...

As part of the Biden-Harris Administration's Investing in America agenda, the U.S. Department of Energy's (DOE) Office of Clean Energy Demonstrations (OCED) today opened ...

Energy Storage Demonstration and Validation , Research Funding

The objective of this FOA is to fund demonstrations of 3 different energy storage technologies that operate at a meaningful scale in the field and consist of strong partners that ...

China's energy storage capacity expands to support low-carbon ...

At the beginning of this year, the NEA released a list of 56 new-type energy storage pilot demonstration projects, including 17 lithium-ion battery projects and 11 ...
