East asia energy storage lithium battery wholesale

Overview

What is Southeast Asia's largest energy storage system?

Sembcorp Industries (Sembcorp) and Singapore's Energy Market Authority (EMA) have officially opened what is being touted as Southeast Asia's largest energy storage system. The Sembcorp energy storage system (ESS) spans two hectares of land in the Banyan and Sakra region on Jurong Island, southwest of the main island of Singapore.

Does Singapore need energy storage systems?

The Energy Market Authority (EMA), a statutory board under the Singapore Ministry of Trade and Industry, is taking proactive steps to encourage the deployment of energy storage systems across the island. Various statutory papers have been published to provide clarity on the deployment of ESS in Singapore and the current regulatory framework.

Will Australian batteries help keep energy prices down?

In December 2022, the Australian government announced that eight large batteries to store renewable energy would be built around Australia to support the grid and help keep energy prices down. Nearly USD 120 million in funding for the projects will be provided by the government-owned Australian Renewable Energy Agency (ArenA).
