Energy storage cabinet container customization

Overview

What is a container energy storage system?

The Container Series are outdoor containerized energy storage systems for utility grid tie or C/I behind the meter applications. Modular Configurations: BATTERY: 1.72MWh to 5MWh ranges. PCS INVERTER: 80kW TO 2MW ranges.

Why do you need a custom energy storage solution?

Provide cost effective, custom energy storage solutions to reduce operating costs, address power grid instability, and improve the environment. Store energy from solar, grid, wind, etc. and power your business efficiently, at a fraction of the cost. Have peace of mind, knowing that you're prepared for anything.

What is a cabinet Series C/I energy storage system?

The Cabinet Series for indoor and outdoor C/I energy storage systems help reduce peak energy costs from equipment and operations. Modular Configurations: 30kW, 60kW, 90kW inverter power paired with 101kWh to 187kWh battery storage. Parallelable Solutions: Parallel up to 3 cabinets together per install for custom solutions.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

Why should you choose Bluesun energy storage container solutions?

The professional technical service team makes reasonable design according to the roof type of customers to ensure the efficient operation of customer projects. Bluesun provides 500 kwh to 2 mwh energy storage container solutions. Power up your business with reliable energy solutions.

What is a Bess container?

BESS containers are more than just energy storage solutions, they are integral components for efficient, reliable, and sustainable energy management. BESS containers are designed for safety and scalability. Their ability to be stacked and combined allows for customization according to project size
