Overview

When is Italy's leading energy storage event 2026?

Join us on April 15-16, 2026 for the 3rd edition of Italy's leading event on energy storage. The 2025 edition confirmed that energy storage is steadily advancing, with important regulatory updates, stronger public support at both EU and national levels, and increasing project execution.

What is the Energy Storage Summit 2026?

2026 is set to be a year of growth for the European energy storage sector, and a pivotal year for the wider energy transition. Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead.

What is the Energy Storage Summit?

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead. As of this year, the UK has reached over 120 MWh of approved grid-scale battery storage, with around 14 GW in the pipeline.
