Energy storage power station franchise conditions

Overview

Let's cut to the chase: if you're reading about energy storage power equipment franchises, you're probably either a budding entrepreneur eyeing the renewable energy boom or a seasoned investor tired of chasing yesterday's trends. Either way, you're in the right place. This isn't just another "green.

Let's cut to the chase: if you're reading about energy storage power equipment franchises, you're probably either a budding entrepreneur eyeing the renewable energy boom or a seasoned investor tired of chasing yesterday's trends. Either way, you're in the right place. This isn't just another "green.

California has been a leader in energy storage, with the enactment of AB 2514, which requires 1.3 gigawatts of energy storage capacity from the state's three large investor-owned utilities by 2020. The state also adopted legislation earlier this year to accelerate and expand the deployment of.
