Keep things professional and put-together with All Hands Fire's firefighter station wear and uniforms. With All Hands Fire, you can build your uniform from scratch or simply add an embellishment or two. We offer full apparel, uniforms, and uniform accessories for all your firefighter station wear needs.

Why do firefighters wear performance-ready stationwear?

Due to the extreme nature of firefighting, it's important that firefighters and fire safety professionals wear performance-ready stationwear when an emergency call comes in.

What types of firefighter uniforms do you offer?

We offer full apparel, uniforms, and uniform accessories for all your firefighter station wear needs. Choose from Class-A Uniforms, Class-B Uniforms, Dress Bell Caps, Badges, Insignias, Uniform Shoes, Belts, Outerwear, and other essential fire department apparel.

Are station/work uniforms NFPA compliant?

be a correct statement. Station/work uniforms compliant only with NFPA 1975 are not primary protective garments and cannot be relied on to provide full protection. Although it is true that flame protection. In order to comply with NFPA guidelines in the United States, fire fighters must wear fire.

Is a fire retardant station uniform necessary?

Fire retardant station wear is probably not necessary. If we get into a condition where our personal protective equipment and self-contained make a difference at that point. Station uniforms are worn infrequently by volunteer members. Also issue has not been taken up by SOG Committee. Only use of a uniform is for special detail.

What are the requirements for station uniforms?

This document specifies two levels of requirements for station uniforms: —  
Level 1 specifies minimum no melting nor dripping requirements that provide no additional protection but ensure the firefighter is not harmed by the melting of station uniform materials in cases where heat or flames impinge the station uniform.
