Haichen energy storage technology event

Overview

On September 9th, local time, Haichen Energy Storage held a "Golden Hour" energy storage technology sharing session in Anaheim, the United States, and launched its 6.25MWh energy storage system solution for the first time in the world, committed to creating the best new platform for 4-hour long-term energy storage application scenarios, and started global delivery in the second quarter of 2025, which has attracted the industry's attention to the long-term energy storage application scenario platform.

Haichen energy storage technology event

How is the Haichen Energy Storage Technology shuttle bus?

To summarize, the Haichen Energy Storage Technology shuttle bus exemplifies a transformative approach to urban transportation through its advanced battery systems, ...
