Indian grid establishes indian energy storage company

Overview

Indian power-sector infrastructure investment trust (InvIT) India Grid Trust (BOM:540565), or IndiGrid, has secured the International Finance Corporation's (IFC's) backing for a 180-MW/360-MWh energy storage project in the state of Gujarat. Battery energy storage systems (BESS) License: CC0 1.0.

Indian power-sector infrastructure investment trust (InvIT) India Grid Trust (BOM:540565), or IndiGrid, has secured the International Finance Corporation's (IFC's) backing for a 180-MW/360-MWh energy storage project in the state of Gujarat. Battery energy storage systems (BESS) License: CC0 1.0.

New Delhi/Mumbai, 02 July 2025 - To further strengthen India's renewable energy infrastructure, IFC and IndiGrid [BSE: 540565|NSE: INDIGRID] have partnered to develop a 180 MW/360 MWh standalone battery energy storage system project in Gujarat. The project is designed to play a key role in.

IndiGrid is India's first publicly listed infrastructure investment trust focused on the power sector, established in 2016. It is backed by US investor Kohlberg Kravis Roberts & Co (KKR) and Indian power transmission company Sterlite Power. The New Delhi-headquartered trust said today that it has.

IndiGrid [BSE: 540565 | NSE: INDIGRID] is India's first and largest publicly listed Infrastructure Investment Trust (InvIT) in the sector. It owns, operates, and manages power transmission, renewable generation, and energy storage assets that deliver reliable power throughout India. IndiGrid was.

IFC, a member of the World Bank Group, on Thursday committed ₹460 crore to IndiGrid to build India's largest standalone battery energy storage system project in Gujarat. The project is designed to play a key role in supporting the state's clean energy goals by enhancing grid stability and ensuring.

In a significant boost to India's burgeoning renewable energy sector, the International Finance Corporation (IFC), a member of the World Bank Group, has committed Rs 460 crore (approximately USD 55 million) in long-term financing to IndiGrid (India Grid Trust). This substantial investment is. Is indigrid a regulated utility-scale battery energy storage system?

Home News IndiGrid Powers Up Delhi With India's First Regulated Utility-Scale Standalone Battery Energy. IndiGrid, India's leading Infrastructure Investment Trust (InvIT) in the power sector, has announced the commissioning of the country's first regulated utility-scale standalone Battery Energy Storage System (BESS) project.

What is India's first battery energy storage system?

IndiGrid launches India's first utility-scale Battery Energy Storage System in Delhi, enhancing renewable energy integration.

Why is indigrid launching a commercial battery storage project?

Marking IndiGrid's entry into commercial battery storage, this milestone project represents a pivotal moment in India's energy transition. The BESS installation is engineered to support renewable energy integration into the distribution grid, enhance grid stability, manage peak demand, and fulfill ancillary power system needs.

How many power projects does indigrid own?

It owns 43 power projects, consisting of 53 transmission lines with more than ~9,336 ckms length, 16 substations with ~25,050 MVA transformation capacity, ~1.15 GWAC (~1.5 GWp) of solar generation capacity, and 450 MW / 900 MWh of Battery Energy Storage Systems. IndiGrid has assets under management (AUM) of over ~₹ 319 billion (~USD 3.7 billion).

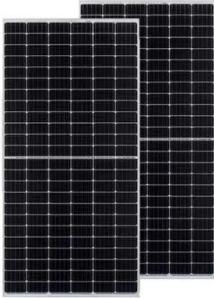

Will indigrid help India achieve 100 GW of renewable capacity?

IndiGrid has been a trusted partner to IFC in advancing sustainable and inclusive infrastructure in India, he said, adding, the latest investment supports Gujarat's goal of achieving 100 GW of renewable capacity by 2030 and sets a replicable model for other states.

Will indigrid contribute to India's Bess project?

IndiGrid's involvement in the BESS project is poised to contribute to India's renewable energy objectives and reflects the company's readiness to support the expected growth in the country's BESS sector.

Indian grid establishes indian energy storage company

"Battery energy storage market in India is on the ...

The next five years will witness a transformative shift in India's energy landscape, positioning the country as a global leader in energy storage innovation, says Saurabh Kumar, vice president-India, GEAPP ...

India bolsters renewable grid with energy storage ...

With a strategic push towards battery energy storage systems (BESS) and pumped hydro storage, India aims to address the increasing

IndiGrid teams with British, Norwegian funds on ...

IndiGrid, British International Investment (BII), and Norfund have launched the \$300 million EnerGrid platform to develop transmission and standalone battery energy storage system (BESS) projects.

IFC to back IndiGrid's project for India's largest ...
