Kaishan business park energy storage

Overview

How many employees does Kaishan have?

Today, Kaishan has become a diversified global company engaged in R & D, manufacturing and operation of industrial, Infrastructure, Expansion power generation equipment and Geothermal new energy power stations operation, with more than 4500 employees worldwide, including about 350 foreign employees from 18 countries.

Is Kaishan a profitable business?

Kaishan quickly expanded the niche technology into a lucrative business. Since it put online the first of four phases of the 240-MW Sorik Marapi Geothermal Project in Indonesia in 2018, it has built the 10-MW Sokoria Geothermal, also in Indonesia, alongside projects in Turkey, the U.S., and Hungary.

How has Kaishan become a global company?

It has gradually carried out global mergers and acquisitions, successively acquiring Australian Antarctic star compressor, Austrian LMF compressor company, Hungary turawell geothermal company, Indonesia Pt sokoria geothermal company, Indonesia Pt SMGP Geothermal Engineering Company, etc., making Kaishan begin to take shape globally.

Does Kaishan have a Rankine cycle expander?

Kaishan, which had then already begun its transition from a giant Shanghai-headquartered air compressor maker to a diversified global company, jumped into action to leverage its 2012-developed Organic Rankine Cycle (ORC) expander and screw steam expander technologies.

Why is Kaishan's EPC contract more expensive than Menengai II?

According to Yan, Kaishan's cost-effective price point proved a crucial selection advantage. Kaishan's EPC contract is valued at \$65 million,

compared to a \$108 million EPC contract recently awarded for Menengai II, one of the region's three equally sized IPP projects. The price difference is rooted in the technology selection, Yan explained.

Where is Kaishan compressor made?

In 2009, Kaishan set up Jersey North America R & D center in Seattle, which attracted many top compressor experts in the world and formed a new model of "R & D in North America and made in China".
