# New delhi park power storage

## Overview

---

This system will store electricity in batteries and supply power during peak hours or emergencies. With a 20 MW/40 MWh capacity, it will provide four hours of daily power to about one lakh residents.

## New delhi park power storage

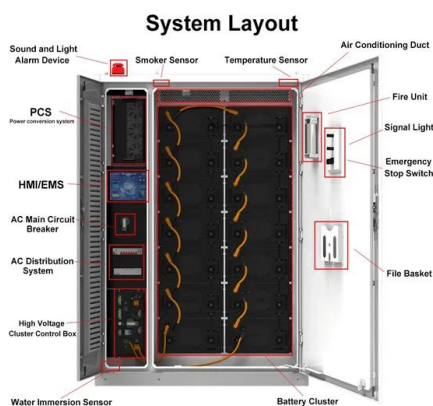

### About Us , Power Department

The per-capita consumption of the consumers in Delhi is more than 1561 units per annum as against the national average of 1010 units (FY 2014-15). Delhi, being an urban place with high load density, has seen the electricity ...

## AmpereHour commissions 20 MW/40 MWh BESS ...

The BESS provides four hours of uninterrupted backup power daily--two hours during afternoon peaks and two at night--helping replace fossil fuel based power generation during peak hours with ...

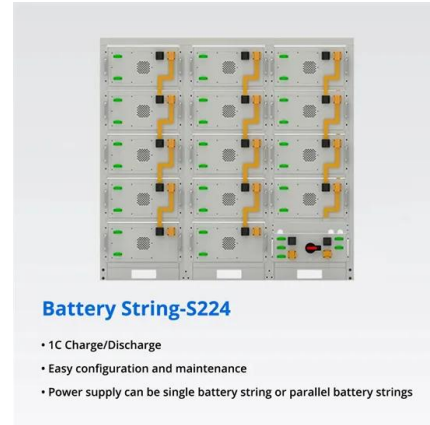

## India's First Commercially-Approved 20 MW Standalone Battery ...

Once fully deployed, the BESS is expected to enhance power reliability for approximately one lakh residents in Kilokri, a densely populated and low-income area in South ...

## Delhi's Largest Battery Storage System Inaugurated

A 20 MW battery energy storage system, the largest in South Asia, has been inaugurated in Delhi's Kilokari, providing 4 hours of backup

power during outages.

## India's First Commercial Utility-Scale Battery ...

New Delhi , 08 May 2024 -- In a significant step forward for India's energy transition, the Delhi Electricity Regulatory Commission (DERC) has granted regulatory approval of India's first commercial standalone Battery Energy ...
