New market laos energy storage frequency regulation

Overview

How is electricity sold in Lao PDR?

The business of selling electricity in Lao PDR is regulated by the Electricity Law, with one state-owned company – EDL – selling domestic electricity. EDL procures the electricity that it sells from IPPs and EDL-Gen, the domestic power producers.

How can Lao PDR improve regional energy security?

Opportunities exist in Lao PDR to enhance regional energy security through deep integration with neighbouring countries' power grids through the transmission network of the Association of Southeast Asian Nations (ASEAN). 2.2.

What is energy policy in Lao PDR?

Energy policy in Lao PDR has gained much public attention since the establishment of the Ministry of Energy and Mines (MEM) in 2006. Under MEM, the country's energy policy has evolved from a singular power sector policy to broader policies supporting the development of a sustainable and environmentally friendly energy sector.

How much power does Lao PDR generate a year?

Source: MEM and EDL. In 2021, Lao PDR's power generation was 11,661.14 megawatts (MW), with a generation potential of 58,813.42 gigawatt-hours (GWh) per year (Lao Statistics Bureau, 2022). Figure 3.2 shows Lao PDR's installed power generation capacity and available power generation capacity above 1 MW.

Is energy storage a new regulatory resource?

As a new type of flexible regulatory resource with a bidirectional regulation function [3, 4], energy storage (ES) has attracted more attention in participation in automatic generation control (AGC). It also has become

essential to the future frequency regulation auxiliary service market .

What is frequency regulation power optimization?

The frequency regulation power optimization framework for multiple resources is proposed. The cost, revenue, and performance indicators of hybrid energy storage during the regulation process are analyzed. The comprehensive efficiency evaluation system of energy storage by evaluating and weighing methods is established.
