# Ordinary people enter the energy storage industry

## Overview

---

Ordinary individuals can leverage various pathways to generate income in the energy storage sector. 1. Educating oneself on emerging technologies, 2. Investing in related stocks or funds, 3. Participating in community energy projects, 4. Offering consultancy services. How big is the energy storage industry?

**Industry Growth:** The energy storage industry includes over 13900 companies, growing by 3.56% last year, reflecting its expanding market presence and potential. **Manpower & Employment Growth:** The industry employs 1.7 million people globally, with 114000 new employees added last year, indicating substantial workforce expansion.

How can governments accelerate the adoption of energy storage technologies?

Governments must implement supportive policies, provide grants, and create incentives to accelerate the adoption of energy storage technologies. The Energy Storage Industry Report 2024 uses data from the Discovery Platform and encapsulates the key metrics that underline the sector's dynamic growth and innovation.

How much money is invested in the energy storage industry?

Investment in the energy storage industry is robust, with an average investment value of USD 84 million per round. More than 2000 investors have participated in over 5230 funding rounds, supporting over 2,100 companies. This strong financial backing highlights the sector's potential and the confidence of investors in its future growth.
