Petrochina energy storage framework

Overview

PetroChina is backing its ambitious goals with significant financial commitments, signaling a genuine shift towards low-carbon technologies. Investments in 11 new gas storage hubs to enhance supply security and manage fluctuations in gas demand. What makes PetroChina a good energy company?

As a leading energy company in China, PetroChina operates in a socially and environmentally responsible manner, pays high attention to the environment, safety and governance, maintains a good reputation and pursues harmonious relationships between energy, the environment and the society.

Why is stable supply important to PetroChina?

Ensuring stable supply is an important social responsibility to PetroChina. To this end, we are strengthening coordination and organizational efforts to establish a sustainable mechanism and give back to society.

Does PetroChina have a third-party HSE management system?

To ensure the smooth operation of the HSE system and its continuous improvement, PetroChina introduced a third-party HSE management system. We have established an independent HSE Management Certification Center, which is also certified under the national OHS-MS management system.

Is PetroChina a stable stock?

"Supplies are generally stable for the time being, but the costs jump sharply," Dai said. PetroChina targets to produce 4.57 million boe/d or 1.67 billion boe of oil and gas in 2022 globally, rising from 4.45 million boe/d in 2021, according to the company report.

How does PetroChina respond to the crisis of gas supply security?

In response to the grim situation of gas supply security, we PetroChina integrates the new generation of network information technology into the

traditional oil and gas industry, and applies new technologies such as cloud computing, big data and Internet of Things (IoT) to the whole process of production and operation.

Does PetroChina have a good customer experience?

According to the 2017 China Customer Satisfaction Index (C-CSI), an index compiled by brand rating and consulting institute Chnbrand, PetroChina's aggregate score came out on top in terms of three key satisfaction indicators for gas stations: customer loyalty, overall satisfaction level and elements satisfaction level. Enhance Customer Experience.
