# Photos of the building s energy storage facilities

## Overview

---

What is energy storage facility?

Energy storage facility is comprised of a storage medium, a power conversion system and a balance of plant. This work focuses on hydrogen, batteries and flywheel storage used in renewable energy systems such as photovoltaic and wind power plants, it includes the study of some economic aspects of different storage technologies.

Where are the energy storage projects being built?

The energy storage projects will be located at three existing SCE power substations: 225 MW at Springvale Substation in Big Creek-Ventura, 200 MW at Hinson Substation in the Los Angeles Basin, and 112.5 MW at Etiwanda Substation in the Los Angeles Basin.

What is energy storage outline icon?

Energy storage outline icon set with distributed generation grid, electric vehicles home charging, demand management, lead acid, nickel and lithium ion battery and more editable stroke line symbols.
