Pure aluminum energy storage box custom made

Overview

Who makes aluminum storage boxes?

For over 14 years, Sun Case has specialized in manufacturing aluminum storage boxes. We focus on customization, high-quality products, and competitive pricing ensures timely worldwide delivery. An aluminum storage box is a durable, lightweight container made primarily from aluminum.

What are custom aluminum boxes?

Custom aluminum boxes are made in a variety of styles with countless features. You can specify windows, louvers, locks, gaskets, and much more. Aluminum boxes are versatile and can be used as electrical enclosures, mobile cabinets, and storage for tools, among other things. Your design selection is unlimited with KDMfab.

Is it eco-friendly to make custom aluminum boxes?

Manufacturing custom aluminum boxes is eco-friendly since aluminum is recyclable. You will be able to recycle or modify your box, easily giving it a second life. Aluminum is also highly weldable, bendable, and ductile, making it easy to machine and customize at any time.

What are aluminum storage boxes?

These boxes are built to store and protect various items, from personal belongings to professional gear. SunCase offers customizable aluminum storage boxes in several sizes and styles to meet specific needs. The available range of storage and carrying cases offers sizes spanning from 30 cm to 50 cm in width.

What are the benefits of custom aluminum boxes?

Custom aluminum boxes offer several benefits due to the material they are made from. Aluminum is a lightweight material, so the boxes fabricated from it are easy to move, carry, and mount—making it a versatile solution for any

project. Additionally, aluminum is recyclable, so manufacturing custom aluminum boxes is eco-friendly and affordable in the long run.

Which alloys are used for custom aluminum boxes?

The most common alloys used for custom aluminum boxes are 6062, 7075, and 3003. You can always contact KDM support to discuss the best alloy for your project. Metal fabrication is the process of making metal pieces by cutting, bending, and shaping the metal.
