Sinopec engineering energy storage project

Overview

What is Sinopec doing in green hydrogen refining?

In the field of green hydrogen refining, Sinopec has been vigorously advancing centralized wind power and photovoltaic development, laying out mega-scale projects integrating renewable energy power generation, hydrogen production, storage, and utilization.

How many hydrogen refueling stations does Sinopec have?

With a focus on hydrogen transportation and green hydrogen refining, Sinopec is accelerating its hydrogen development with the establishment of more than 100 hydrogen refueling stations, owning and operating the largest number of hydrogen refueling stations in the world to date.

How many tons of hydrogen will Sinopec produce a year?

In addition to the Project, Sinopec's green hydrogen project in Ordos, which will produce 30,000 tons annually began construction in February 2023, while the Ulanqab project is now in the planning stage.

How much oil does Sinopec produce a day?

The daily oil production is 302 tonnes, with 26,500 tonnes of incremental oil production obtained. E.g Fan 142-20, the oil production rate increases from 8 t/day to 40 t/day. kilometer CO2 transmission pipeline. The project design, construction and equipment development are completed by Sinopec.

What is Xinjiang's hydrogen project?

Utilizing the abundant solar resources in Xinjiang, the Project has an electrolyzed water hydrogen plant with an annual capacity of 20,000 tons, a spherical hydrogen storage tank with a hydrogen storage capacity of 210,000 standard cubic meters, and hydrogen transmission pipelines with a capacity of 28,000 standard cubic meters per hour.

What projects are under construction in China?

Projects of Luoyang Petrochemical's 1 million-tonne ethylene, Yueyang's 1 million-tonne/year ethylene, Zhenhai Refining and Chemical's 1.5 million-tonne/year ethylene, Maoming Petrochemical's ethylene were fully under construction. New Energy, New Material, New Economy and Science research auxiliary projects.

Sinopec engineering energy storage project

Sinopec's Mega Storage Project: A Game Changer for Renewable Energy?

Why Energy Storage Can't Be an Afterthought Anymore You know how people talk about solar panels and wind turbines like they're the superheroes of clean energy? Well, here's the kicker ...

Técnicas Reunidas and Sinopec awarded \$3.3

Saudi Aramco, one of the world's largest energy companies, has awarded a joint venture formed by the Spanish company Técnicas Reunidas and the Chinese Sinopec Engineering Group the ...
