What is solar & storage live?

Solar & Storage Live is Cape Town's largest renewable energy exhibition that celebrates the technologies at the forefront of the transition to a greener, smarter, more decentralised energy system. Industry leaders come together to share their expertise on key topics in the field across 2 action-packed days.

Can you save money with solar systems in Cape Town?

Yes, you can save a lot of money with solar systems in Cape Town. Initially, you have to drop a couple of thousands to get the system installed, especially if it needs to power your entire property. However, it becomes cost-effective in the end when you don't have a massive electricity bill and you're not affected by load-shedding in Cape Town.

What is a residential solar battery system in Cape Town?

A Residential Solar Battery System in Cape Town enables you to operate independently from the grid for 6 to 8 months of the year. It consists of Solar Panels, an Inverter and a Lithium Battery.

Why should you install a solar power system in Cape Town?

They can also help you to save thousands of Rands that would otherwise be spent on electricity bills in Cape Town. In addition, a company's income tax liability can be significantly decreased as it contributes towards deductions. How long does it take to install a solar power system?

.
