

**JH Solar**

# **Solar energy storage project bidding**

## Overview

---

The Solar Energy Corporation of India (SECI) has invited bids to set up 1,200 MW of interstate transmission system (ISTS)-connected solar projects integrated with 600 MW/3,600 MWh energy storage systems (ESS). Bids must be submitted by August 18, 2025. Bids will be opened on August 21. Will a 2,000 MW solar project be co-located in India?

State-owned SECI on Thursday invited bids for setting up a 2,000 MW solar project with co-located energy storage systems in India. In February, the Central Electricity Authority (CEA) issued an advisory on co-locating energy storage systems with solar power projects, a move aimed at enhancing the cost efficiency and stability of the grid.

When can I bid for solar energy projects in India?

The last date to submit online bid is July 22, and for offline it is July 24, 2025. The bids will be opened on July 25 Solar Energy Corporation of India Limited (SECI), under the Ministry of New and Renewable Energy (MNRE), is a nodal agency for auctioning renewable energy projects. How will SECI select a solar power developer?

As per the bid document on the SECI website, the selection of a solar power developer (SPD) for the Inter-State Transmission System (ISTS) grid-connected project with 1000 MW/4000 MWh Energy Storage Systems (ESS) will be under a tariff-based competitive bidding (SECI-ISTS-XX) process.

How much solar power will India need by 2031-32?

As per the National Electricity Plan published by the Central Electricity Authority, in order to integrate the 364 GW of solar and 121 GW of wind capacity by 2031-32, India would require 73.93 GW/411.4 GWh of storage capacity (26.69 GW/175.18 GWh from PSP - Pumped Storage Project - and 47.24 GW/236.22 GWh from BESS).

How many mw can a solar project have?

The minimum capacity that can be quoted is 50 MW, and the maximum allowed is 600 MW, in multiples of 10 MW. Developers must include a storage component of at least 0.5 MW/3 MWh per MW of solar capacity.

How long does a solar power purchase agreement last?

The ESS must be physically situated at the solar project sites. The projects must be commissioned within 24 months from the effective date of the power purchase agreement (PPA), with an additional six-month window for delays. The PPA tenure is 25 years.

## Solar energy storage project bidding

### 2025 energy storage power station bidding

The plan specified development goals for new energy storage in China, by 2025, new energy storage technologies will step into a large-scale development period and meet the

### India launches 500MWh BESS tender, as ...

NTPC, a state-owned independent power producer (IPP) with more than 76GW of thermal power and renewable energy generation in its portfolio, issued invitation for bids (IFB) for grid-connected standalone ...

LFP 280Ah C&I

### DOE seeks bids for 10.5 GW of solar, wind, energy ...

MANILA - The Department of Energy (DOE) on Wednesday released the Terms of Reference (TOR) for the fourth round of the Green Energy Auction (GEA-4), bidding 10,478 megawatts (MW) of ...

### SECI solar-plus-storage tender awards bids at cost 'competitive ...

Winning bids as low as INR3.41/kWh have been registered in a tender for solar PV paired with

battery storage hosted by the SECI.

### Home Energy Storage (Stackable system)

- Product Introduction**
- ☑ Scalable from 10kWh to 50kWh
  - ☑ Self-Consumption Optimization
  - ☑ Integrated with inverter to avoid the compatibility problem
  - ☑ LFP battery, safer and long cycle life
  - ☑ Backdoor design for effortless installation
  - ☑ Capable of High-Powering
  - ☑ Emergency Backup and Off-Grid Function

## Daily News Wrap-Up: MoP Issues Pumped ...

The Ministry of Power has issued tariff-based competitive bidding guidelines to procure stored energy from existing, under-construction, or new pumped storage projects. The draft policy was issued in
