South africa pumped energy storage project bidding

Overview

Who is bidding for battery energy storage in South Africa?

South Africa's Independent Power Producers (IPP) Office has said 33 bids have been received as part of the third window of the country's battery energy storage auctions. The bids have come from 28 companies, with two bidding for multiple sites. The bidders include France's TotalEnergies, which has made several submissions.

Is pumped hydroelectric energy storage a good investment in South Africa?

Tower in upper basin of a pumped hydroelectric energy storage dam. Image Source: Guentherm1©123RF The development of a major pumped hydro storage project in South Africa has received a major financial boost as the country looks to increase its renewable energy output.

Where will South Africa's energy projects be located in 2024?

With bids due by July 31, 2024, the projects will be situated at five pre-selected substation sites identified by South African energy company Eskom. The sites include the Harvard, Leander, Theseus, Everest and Merapi substations in the country's Free State province.

How much power will South Africa have?

It will have power generation capacity of 1,5 GW (four 375 MW units) and storage capacity of 21 GWh. Such large-scale storage and grid services are necessary to accommodate rapid development of renewable energy in South Africa, as outlined in the Just Energy Transition Investment Plan.

Why do we need large-scale storage and grid services in South Africa?

Large-scale storage and grid services such as these are necessary to accommodate the rapid development of renewable energy in South Africa, as planned through the Just Energy Transition (JET) Investment Plan. "This support will provide Eskom and in turn South Africa with a further pathway to

move from a high-carbon to a low-carbon economy.

Will Eskom provide more energy storage to stabilize the South African grid?

Providing more energy storage is key to Eskom's strategy to stabilize the South African grid. Bid submission date for the auction was supposed to be in July 2024 but was moved to November 2024. The IPP Office published the identities of the bidders on its website on Nov. 28.
