Tent energy storage company

Overview

Is Tent Mountain a pumped hydro energy storage project?

However, in mid 2021, the Company pivoted at Tent Mountain to develop the site as a pumped hydro energy storage project. The Tent Mountain Pumped Hydro Energy Storage Project (TM-PHES) was sold to TransAlta Corporation in early 2025. Evolve also took steps to advance the Chinook Project between 2018-2022.

Could Tent Mountain be a 'green energy project'?

Doyle said Tent Mountain is situated near existing roads, railways and pipelines, which offer the potential to transport the hydrogen to buyers. An infographic explaining how the 'green energy project' proposed for Tent Mountain would work. (Montem Resources).

Is Tent Mountain a pumped-hydro facility?

Of the various methods for producing hydrogen, it results in the least greenhouse gas emissions. Montem CEO Peter Doyle says the size and shape of Tent Mountain, combined with existing reservoirs from an earlier coal-mining project on the site, creates an "absolutely unique opportunity" for a pumped-hydro facility.
